

Stratevo Consulting Inc., founded in 2009, specializes in consulting services in management and technology. Our approach allows organizations to reach their goals by providing assistance in the definition of their IT and financial strategies and seeing to their implementation.

Approach and Services

Stratevo “Strategy Evolution”

The primary objective of Stratevo Consulting is to become a business partner and assist its clients in their business transformation projects. Today's businesses need to react quickly in order to adapt to changing economic situations. They must work together with partners who have the ability to integrate different functional areas by using their multidisciplinary expertise.
